Project Idea :

Code & Coffee is a website that helps computer science students find study partners and organize study groups in cafés. The website allows students to join study groups by entering their name, subject, preferred café, and preferred time. It also includes a contact form where users can send questions or suggestions. All submitted data is validated and stored in a MySQL database.

Website Pages

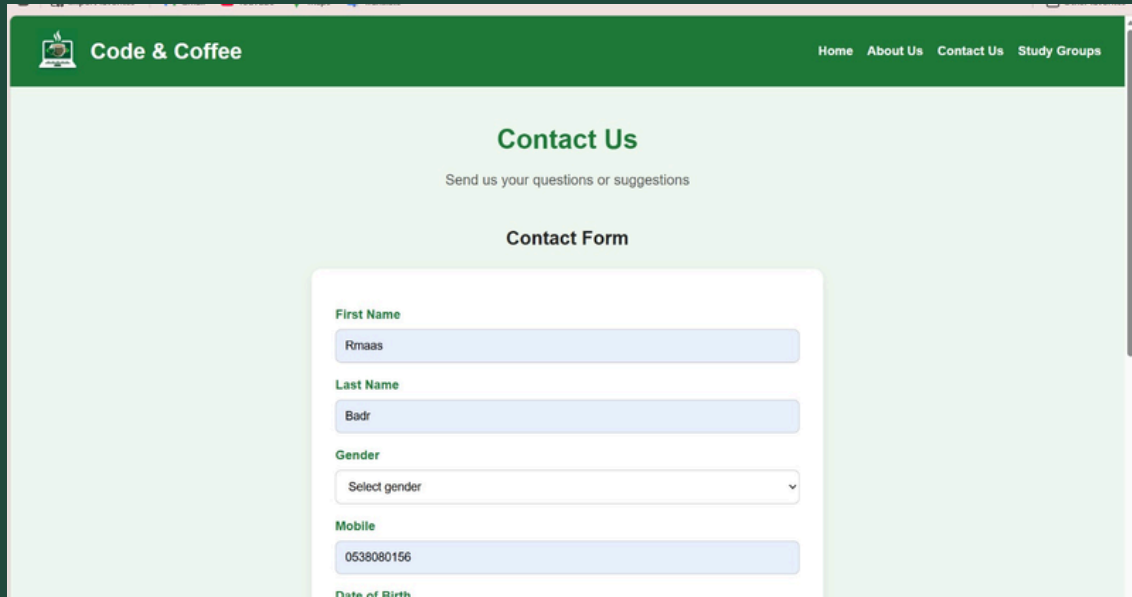

HOME PAGE

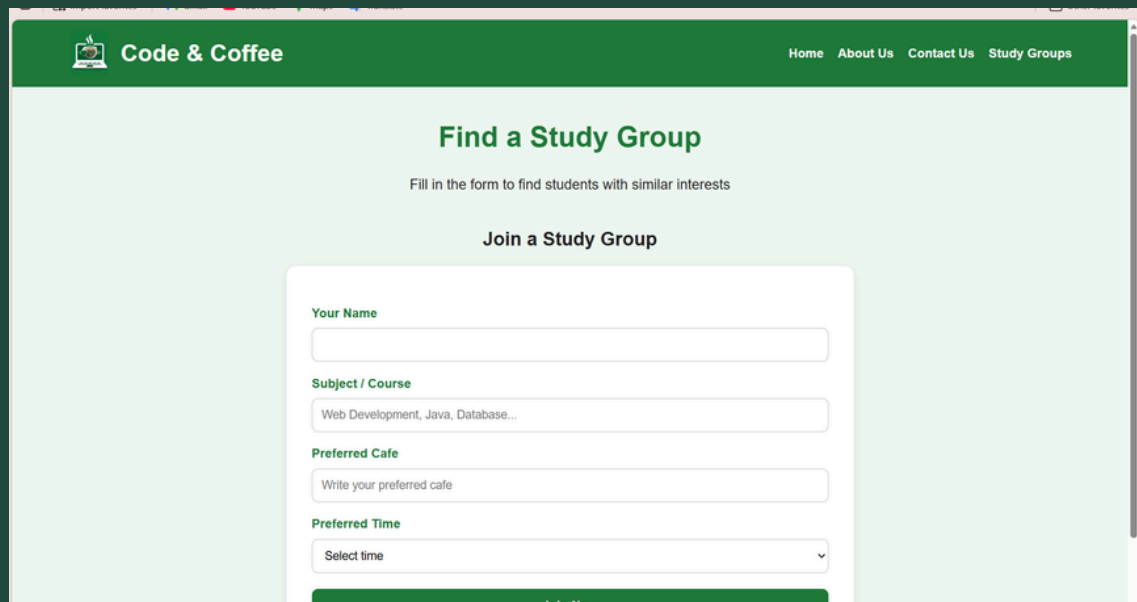

ABOUT US PAGE

Website Pages

The screenshot shows the 'Contact Us' page of the 'Code & Coffee' website. The page has a green header with the logo and navigation links: Home, About Us, Contact Us, and Study Groups. The main content area is light green and features the title 'Contact Us' and the subtitle 'Send us your questions or suggestions'. Below this is a 'Contact Form' with the following fields: First Name (filled with 'Rmaas'), Last Name (filled with 'Badr'), Gender (a dropdown menu with 'Select gender' selected), Mobile (filled with '0538080156'), and Date of Birth (empty).

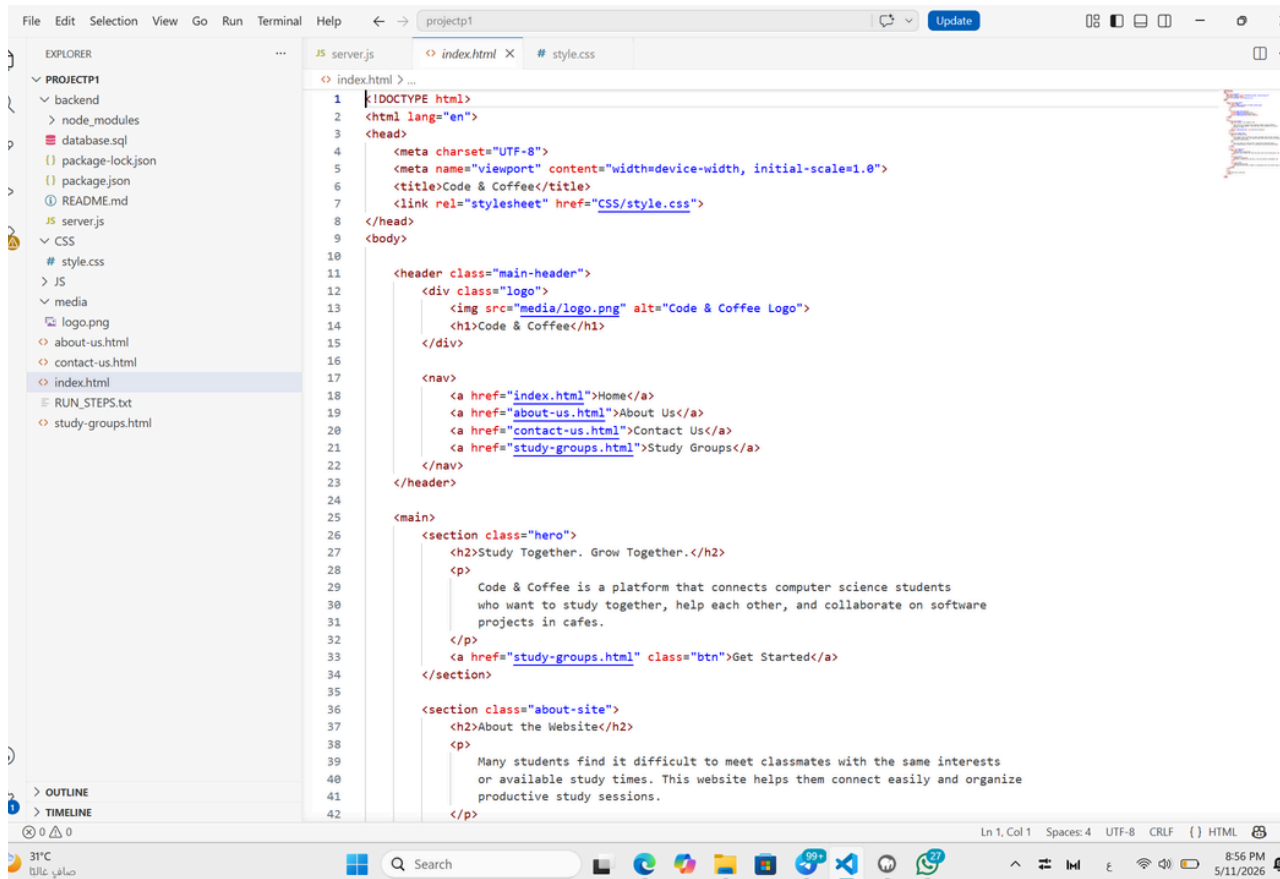

CONTACT US PAGE

The screenshot shows the 'Find a Study Group' page of the 'Code & Coffee' website. The page has a green header with the logo and navigation links: Home, About Us, Contact Us, and Study Groups. The main content area is light green and features the title 'Find a Study Group' and the subtitle 'Fill in the form to find students with similar interests'. Below this is a 'Join a Study Group' form with the following fields: Your Name (empty), Subject / Course (filled with 'Web Development, Java, Database...'), Preferred Cafe (filled with 'Write your preferred cafe'), and Preferred Time (a dropdown menu with 'Select time' selected). A green 'Join Now' button is located at the bottom of the form.

CONTACT-US.HTML

Frontend Validation

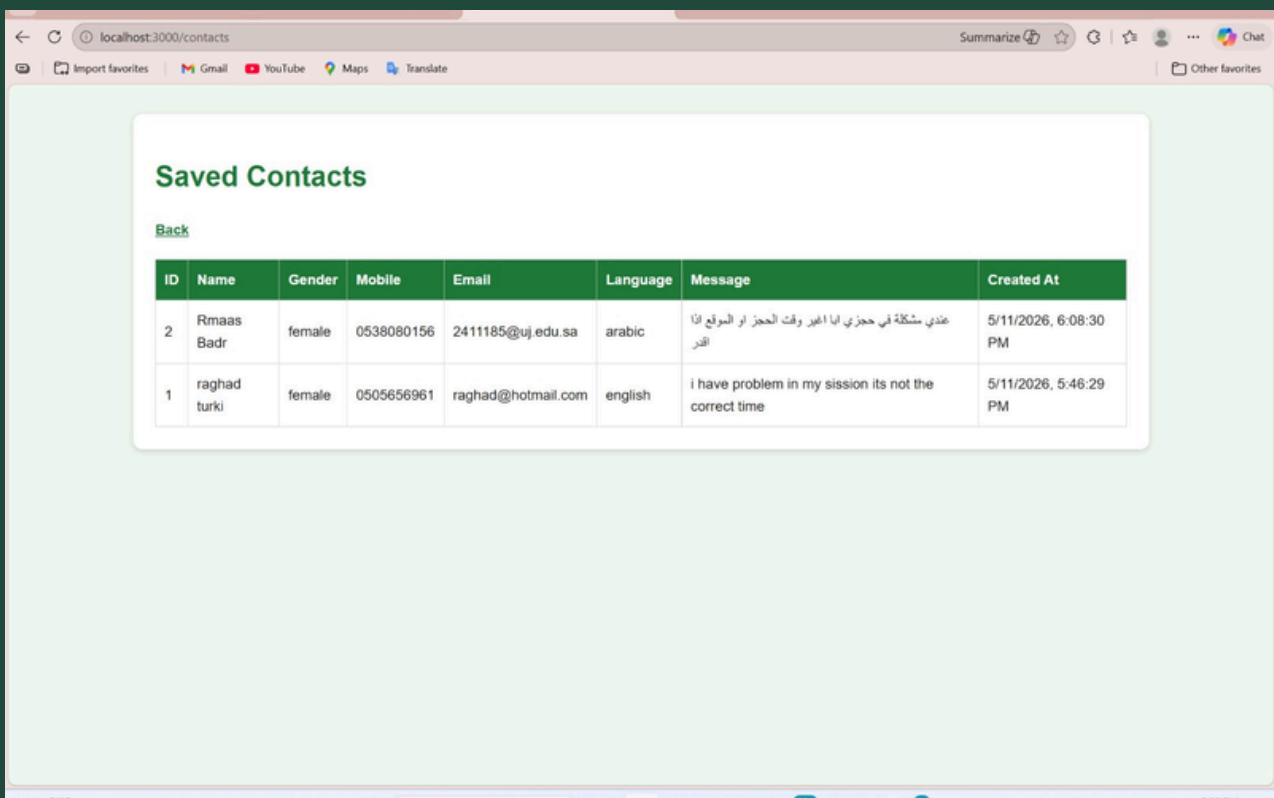

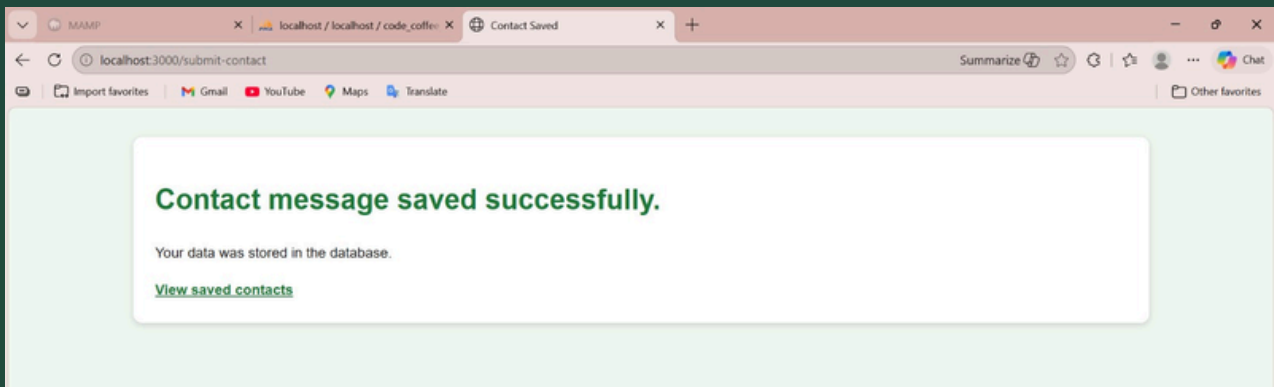

A screenshot of a web browser displaying a contact form. The form fields are: Gender (dropdown menu with 'Female' selected), Mobile (text input with '0538080156'), Date of Birth (date picker with '09/11/2005'), Email Address (text input with 'test'), Language (dropdown menu with 'Arabic' selected), and Message (text area with Arabic text). A validation error message is displayed above the Language dropdown: "Please include an '@' in the email address. 'test' is missing an '@'". Below the form is a green "Send Message" button. At the bottom of the page, there is a link "View saved contacts". The browser's address bar shows "localhost:3000/contact-us.html".

A screenshot of a web browser displaying a "Join a Study Group" form. The form fields are: Your Name (text input with 'taif almutairi'), Subject / Course (text input with 'web'), Preferred Cafe (text input with 'joue and the juce'), and Preferred Time (dropdown menu with 'Select time' selected). A validation error message is displayed above the Preferred Time dropdown: "Please select an item in the list.". Below the form is a green "Submit" button. At the bottom of the page, there is a link "View saved study groups".

HTML Validation

The screenshot shows the Nu Html Checker interface in a web browser. The browser's address bar displays `https://validator.w3.org/nu/#file`. The page title is "Nu Html Checker". Below the title, a message states: "This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change". The main heading is "Showing results for uploaded file study-groups.html (checked with vnu 26.5.11)". Under the "Checker Input" section, the "Show" options are: ☐ source, ☐ outline, ☐ image report, and ☐ errors & warnings only, with an "Options..." button. The "Check by" dropdown is set to "file upload", with "Choose File" and "No file chosen" buttons. A note says "Uploaded files with .xhtml or .xht extensions are parsed using the XML parser." and a "Check" button is present. A green status bar indicates "Document checking completed. No errors or warnings to show." Below this, it says "Used the HTML parser." and "Total execution time 4 milliseconds." At the bottom, there are links for "About this checker" and "Report an issue".

This screenshot shows the Nu Html Checker interface with the same layout as the first one, but for a different file. The browser address bar is `https://validator.w3.org/nu/#file`. The title is "Nu Html Checker". The message below the title is the same. The main heading is "Showing results for uploaded file contact-us.html (checked with vnu 26.5.11)". The "Checker Input" section shows the same "Show" options and "Check by" dropdown. The "Check" button is present. The green status bar indicates "Document checking completed. No errors or warnings to show." Below this, it says "Used the HTML parser." and "Total execution time 5 milliseconds." At the bottom, there are links for "About this checker" and "Report an issue".
